

Execution of Clinical Criteria

InterQual[®] criteria, published by Change Healthcare Inc., are used in many of the MVP Health Care[®] (MVP) medical review processes that evaluate the medical necessity of health care services. The criteria are periodically updated by Change Healthcare Inc. to be consistent with evidence-based standards of care and current practices and are independently peer-reviewed.

MVP will begin using the 2022 InterQual criteria starting on September 12, 2022.
