

MVP is Requesting Main Group Contact Information

MVP Health Care® (MVP) continuously pursues more efficient ways to communicate with our Provider network. To help improve the ease of sharing information, we will increase the amount of information that is *emailed* to practices, as opposed to *faxed*.

To accomplish this, we're collecting contact information from **Main Group Contact(s)** that can help facilitate the distribution of important notifications, updates, and changes in policies or procedures.

Action Required

- Go to **mvphealthcare.com/provideremail** and enter the Main Group Contact(s) and email addresses for the individuals who should receive important announcements from MVP.
 - **Important announcements include** MVP policy updates, regulatory changes, and new procedures
- Contacts may be a **practice manager, administrator, or the primary provider within your practice**. This will help assure that we efficiently provide important, timely, and actionable information to your practice.

MVP's movement to email notifications will help to improve communications in our ever-changing health care environment. **Therefore, we ask that you complete this request by November 1, 2021.**

We value your participation and thank you in advance for your assistance to help streamline communications.

To receive future FastFax messages by email, go to **mvphealthcare.com/provideremail**

To view all communications, visit **mvphealthcare.com/FastFax**

Questions? Contact your MVP Professional Relations Representative or call the MVP Customer Care Center for Provider Services at 1-800-684-9286.
