Healthy Practices Newsletter is Now Available

Visit mvphealthcare.com/HP to access the MVP Health Care® (MVP) Summer 2024 digital newsletter.

In this issue, you will find the following information and topics:

Summertime Reminders

- *August is immunization awareness month, and summer is a great time for parents to review their children's vaccination checklist and prepare for the oncoming school year.*

Let's Talk About HPV Vaccination and Cancer Prevention

- *The Human Papillomavirus infection affects about 85% of the US population and can cause six types of cancer. Learn more about how to educate parents and caregivers about the importance of getting their children vaccinated.*

2024 Provider Practice Satisfaction Survey – Last Call!

- *MVP invites you to offer feedback that will help us continue to improve your experience while doing business with us.*

Tips for Documenting Major Depressive Disorder

- *Major Depressive Disorder, also known as clinical depression, is one of the most common mental health conditions and can affect anyone. Please review tips for identifying and documenting MDD.*

MVP Living Well Programs For Your Patients

- *MVP offers free virtual and in-person opportunities to support your patient's overall well-being. Read more about classes coming soon that they may be interested in taking part.*

Provider Policies and Payment Policies Effective July 1, 2024

- *Review the latest Provider and Payment Policy updates that impact doing business with MVP.*

Save Time and Improve Efficiency

- *Learn how to set up Clinical Data Feeds to exchange patient data seamlessly.*

Tips from HEDIS Operations

- *The MVP HEDIS Team is pleased to provide tips to our Providers that will improve documentation practices and compliance. Please review tips for COA, CSS, and TRC.*

Encourage Members to Enroll in a Local Health Information Exchange

- *Educate your patients about the value of setting up in a regional Health Information Exchange so that Providers will be able to understand their health history and provide proper care.*

Diabetes Screening for People With Schizophrenia or Bipolar Disorder Who Are Using Antipsychotic Medications

- *MVP's Case Managers educate Members on the importance of taking care of their physical and behavioral health needs. Read more on how a collaborate effort can help treat patients with schizophrenia, schizoaffective disorder, or bipolar disorder.*
