Healthy Practices Newsletter is Now Available

Visit mvphealthcare.com/HP to access the MVP Health Care® (MVP) Fall 2024 digital newsletter.

In this issue, you will find the following information and topics:

Changes to Medicare Part D Prescription Coverage in 2025

As we head into the Medicare Annual Open Enrollment period, it is important to review changes coming to prescription drug coverage in 2025.

UVM Health Advantage Plan Will No Longer Be Offered in Vermont Starting January 1, 2025.

Effective January 1, 2025, MVP and the University of Vermont Health Network (UVMHN), will no longer offer our Medicare Advantage (MA) plan in Vermont. Learn more about the next steps for impacted Members.

Let's Share Information to Benefit Your Patients.

MVP is asking Providers to take part in a brief survey to assess how our Medical and Behavioral Health Providers share information in support of our Members.

Provider Policies and Payment Policies Effective October 1, 2024.

MVP Provider Policies and Payment Policies includes revisions on operational procedures, plan type offerings, and clinical programs. Please review policies that have been updated effective October 1, 2024.

Prior Authorization Request for Medicare Advantage Members.

MVP has received requests for services that do not require prior authorization. Please review the top five requested services that do not require prior authorization for any MVP Member when performed by Participating Providers.

Part D Prescription Benefit Information.

Please review tips that will help our Medicare Members to save time, money, and to stay healthy while filling their prescriptions.

2024–2025 Influenza (Flu) Season.

Review tips for helping our Members to understand the importance of getting vaccinated for the flu this fall.

October is Breast Cancer Awareness Month: Documentation and coding tips for Providers.

As Breast Cancer Awareness month is upon us, it is a perfect time to review best practices in coding and documentation.

Prevent Diabetic Retinopathy.

Diabetic retinopathy (DR) is an important cause of visual morbidity and the leading cause of blindness among working-age American adults. Please review tips for how to discuss the importance of scheduling eye exams with patients with diabetes.
