Lighten Up: Crafting a Winter Morning Routine

September 1–December 31

Winter hours, especially after daylight savings, can throw off sleep routines and make it hard to get up in the morning. Help resist the temptation to hibernate during winter with this video of a morning routine, including yoga moves, that can help you gently get up and ready to go for the day.

The Butt Stops Here

Tuesdays, September 8–October 20 7–8 pm

Thursdays, September 10–October 22 7–8 pm

Ready to quit smoking or vaping? The Butt Stops Here is an award-winning tobacco cessation program that combines education, support, and practical strategies to help you break free from nicotine dependence. Over seven weekly sessions, you'll learn how to manage cravings, identify personal triggers, build lasting coping skills, and create a personalized plan for success. Whether you've tried to quit before or are just getting started, this supportive program can help you take the next step toward a healthier future.

The Basics to Blood Pressure

Friday, September 18 12–12:30 pm

This quick presentation covers the basics of blood pressure; from what blood pressure is, to the “normal” numbers, to the ways you can monitor and address your own blood pressure to maintain or improve heart health.

Fall Prevention 101

Monday, September 21 12–1 pm

Join this engaging session designed to help you take control of your safety and reduce your risk of falling. You'll learn to identify personal risk factors, apply simple and practical tips, and respond safely if a fall occurs. Whether for yourself or a loved one, this session builds confidence and supports a steady, independent lifestyle.

Creating Safe Spaces for Fall Prevention

Tuesday, September 22 12–1 pm

Learn practical ways to reduce your risk of falls by identifying common hazards, making simple home safety improvements, and staying safe in your community. We'll also explore helpful devices, resources, and response techniques that can help you prepare for and safely navigate a fall should one occur. Whether you're looking to protect yourself or a loved one, this program offers valuable tools and insights to help you stay safe and independent.

Movement for Fall Prevention

Wednesday, September 23 12–1 pm

***Disclaimer: This is an informational webinar, not an exercise class.*

Discover how purposeful movement can help prevent falls and build everyday confidence. This presentation shares key techniques to enhance strength, balance, coordination, and flexibility, empowering you to stay active and safe.

Conquering Your Fear of Falling

Thursday, September 24

12–1 pm

This engaging presentation helps you understand and overcome the fear of falling, a common issue that affects confidence and independence, especially in older adults. It explores both psychological and physical aspects, offering practical strategies for self-help and professional support. Whether you're facing this fear or supporting someone who is, you'll gain valuable insights and tools to build confidence and improve quality of life.
